The **Sgabello L09** was originally designed by Edoardo Gellner in 1958 as part of the interior design of the Agip Mountain Children's Camp located in the ENI Corporate Village of Cortè di Cadore funded by Enrico Mattei. Stackable and overlappable, this modular stool as well as providing a comfortable seat in its infinite combinations, easily becomes a coffee table or a toy for children. Completely redesigned by **Studio_Gellner** in 2013, the **Sgabello L09** has become a true design icon: simple, joyful and contemporary.

Totally made in Italy by LightsOn
Sgabello L09 is now available:

- * two sizes: H=35cm and H=45cm
- * natural wood or painted finishes
- * cool packaging
